The Holy Cross Guide app does not transmit any user data off of your phone.

The notes pages on the app provide a secure place to jot down your thoughts and questions about that particular program, ministry or space. The Apple CoreData database contains these personal notes and is stored on the phone and at no time is ever uploaded to an online server by the app.

If you wish to delete notes data, simply swipe left and tap delete.

If you have any questions or concerns, please open a support ticket of our support web page:
